DynamiQ Executive Cart
Motorized height-adjustable mobile stand

The DynamiQ Executive Cart provides height-adjustable functionality to maximize mobility with large flat panel displays or Cisco Boards. The DynamiQ Executive Cart is a perfect solution for collaborative, multi-use environments that allow users the flexibility they need for team productivity.

The motorized mount, powered by an electric lift, allows the user to raise and lower a single display up to 75 inches or 254 lbs. Our DynamiQ Executive Cart for Cisco Boards supports the Cisco Board 55, Pro 55, 70, and Pro 75. The control panel, located on the side of the cart, provides easy access to adjust the height of the display with up to 20 inches of vertical movement.

The front panels are available in three standard finishes or customized from a large selection of laminate or veneer finishes. A removable back panel provides access to 3RU of vertical rack space and cable management.
