

PTZ Video Conferencing Camera Mount

Avteq's PTZ Video Conferencing Camera Mount is designed for most PTZ and other video conferencing cameras. It positions the camera above or below 32-98" displays. For dual display applications, the camera mount easily centers the camera at the top or bottom of the displays.

A vertical bracket and one videoconferencing camera shelf attach to the Avteq UM-1 or UM-2 VESA mount. This mount is compatible with most Avteq products.

FEATURES

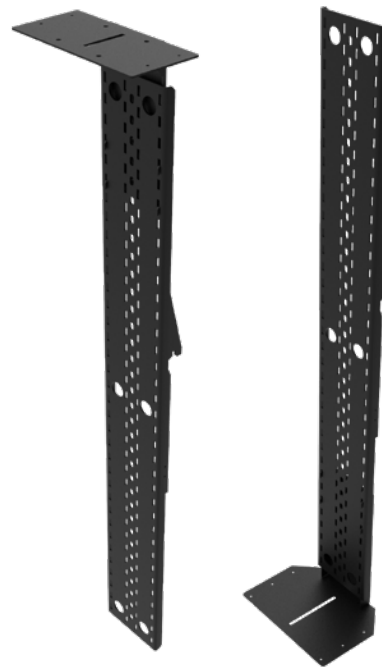

- Positions camera above or below 32-98" displays
- Solid, heavy gauge steel construction
- Black powder coat finish
- TAA compliant
