(Only for dry wall)

C

x3

(Only for wood
or metal studs)

D

x1

A. Wall mount [x1]

B. Anchor screw [x3]
   *For dry wall

C. #8 1 1/2" wood screw [x3]
   *For wood or metal studs

D. 1/4-20 3/4" screw [x1]
STEP 1

Secure wall mount to wall

NOTE: The cutout for the wall needs to be 8.5" wide and 3.8" tall.

NOTE: To secure on dry wall, use the anchor screws (B). To secure on wood or metal studs, use the wood screws (C).

- Place the wall mount (A) in the wall. Secure the wall mount using [x3] anchor screws (B) or wood screws (C), depending on the wall material. For a flat installation of the Neat Frame device, insert screws into the bottom three inner holes of the wall mount. For a slight tilt, insert screws into the top three inner holes of the wall mount.

(Insert screws
inside the mount)

(Flat installation: bottom screw placement)

(Tilt installation: top screw placement)

STEP 2

Secure Neat Frame device to wall mount

- Secure the Neat Frame device to the base of the wall mount (A) using a [x1] 1/4-20 3/4" screw (D). Screw through the bottom of the wall mount (A).

(Neat Frame flat)

(Neat Frame tilted)

(Screw placement)
